Task 1- Research. By Emily Tranter

# What made the 60s and 70s so special?

- The 60s and 70s were so great because women, African Americans, Native Americans, and gays and lesbians continued their fight for equality, and gained some along the way, and the world started to accept all these people gradually!
- Also because they invented a lot of things we use today such as the digital camera, mobile phones, and email!
